

THANK YOU!

WITH YOUR HELP WE
HAVE RAISED £22,000
AND DR JENNER'S
HOUSE CAN OPEN IN
2019

We are delighted to announce that our fundraising appeal has now raised £22,000 and so Dr Jenner's House, Museum and Garden will be able to open for the 2019 season.

In September 2018, we broke the news that the former home of vaccine pioneer Edward Jenner faced closure unless we could raise £20,000 by March 2019. Thanks to the support of visitors, friends from around the world, and businesses and organisations both from the local area and further afield we are very pleased to have reached our target in good time to plan for the forthcoming season.

Although we will enjoy celebrating the success of this campaign, we are aware that there is still much work to do. The momentum generated has been huge and has given us a fantastic opportunity to start discussions with potential partners and funders to secure the long-term future of a site that so many people locally and around the world hold dear. £20,000 will allow us to continue as we are for another year, however to enact lasting change and to grow our work we must keep fundraising.

Our plans for 2019 include the return of Discovery Day, our flagship science festival which was attended by 244 visitors last year, significant improvements to our education programme and a full strategic review of our operations. We are still not in receipt of any ongoing public funding and we are now asking our friends around the world to consider making regular donations which will help us to inform these plans.

Please continue to support our work as an independent charity preserving Jenner's house as a continuing memorial to his remarkable life and legacy. One-off and regular Direct Debit donations can be made online at <https://cafdonate.cafonline.org/7132>, or for cheque, standing orders or more information about partnering with us to deliver a project please contact info@edwardjenner.co.uk or call 01453 810631.

Dr Jenner's House, Museum and Garden will reopen to the public on Saturday 16 February for half-term opening until Wednesday 20 February. The museum's main season will run from Sunday 31 March to Wednesday 30 October, inclusive, when it will be open between Sunday and Wednesday. This year, the museum will also open on Good Friday and Saturdays in Gloucestershire school holidays. Full visitor information can be found at <https://jennermuseum.com>.
